Disclaimer

* This document is subject to change without prior notice.
* A possibility of noise, broken voice, or disconnection may occur because of customers' or our network environment. We cannot guarantee the quality of voice.
* The company assumes no responsibility on the difference of call or voice quality when the hearing acuity of individuals is concern.
* The company assumes no responsibility when it was used outside Japan.
* As for SnomD735 regular server maintenance, you may experience temporarily service stops without prior notice.
* The company assumes no responsibility when the customers caused the phone primary source of malfunction or breakdown.

Maintenance/Cleaning

Please use soft dry clothes to clean the device.
Don't use wet clothes.
Don't use volatile chemical like benzene, or thinner since they can damage the device.

If you want to use a chemical wipe, please read the cautionary notes before using it.

Connection Method:

1. Connect the handset cord in the handset and connect it on the main body.
2. Plug the LAN cable(network) into the RJ45 connector labeled "NET" and plug the other end into the network side to establish a data link.
3. The second RJ45 connector, labeled "PC", is for daisy-chaining further Ethernet devices without the need for a second Ethernet connection line.
4. Insert the plug of the power supply into the connector labeled "DC 5V" and hooks up the casing into the mains.
5. If you want to use a headset, connect it to the RJ audio jack on the bottom shell of the phone.

Snom D735

Snom D735 is a phone device that can be used with our service. It cannot be used as a typical phone. The customer must subscribe to an Internet Service Provider to be able to use the device. Customer with no broadband router feature must provide a separate broadband router.
